Run Report

Note that this tool expects that HTML void elements do **not** have a frontslash (/) in the end tag. For example, `<meta charset="UTF-8">` is correct, but `<meta charset="utf-8" />` is not in this class.

If you do not get a report, there is something wrong with your repository structure. Check that you have a wdd230 GitHub Pages enabled repository and that your file is named index.html. Here is an example of what your structure should look like as a reference:
